Members Introduction:

Rafay Zubair Gill:

Rafay Zubair Gill is a highly motivated and talented student with over one year of experience in game development using Unity. Along with his extensive knowledge of the MERN stack and node.js, he possesses a strong understanding of various programming languages such as C++, C#, and Java. He has a proven track record of delivering top-quality projects with excellent coding standards and attention to detail. His exceptional problem-solving skills and ability to work under pressure enable him to deliver results within tight deadlines.

GitHub Profile: <https://github.com/Rafay-Zubair>

Role: Project Manager, Scrum Master

Figure 3: Rafay Zubair

Jawad Ahmed:

Jawad Ahmed, a third-year software development student, is a reliable and detail-oriented programmer with a passion for delivering innovative solutions. With experience in programming languages like Java, C++, and Python, he is adept at handling projects of various scales and complexities. He is recognized for his ability to work under pressure, strong problem-solving skills, and dedication to ensuring project success. In addition to his technical skills, Jawad is an excellent communicator and collaborator, always seeking to understand the needs and goals of his team and clients.

GitHub Profile: <https://github.com/Jawad151>

Role: UI Designer, Tester

Figure 4: Jawad Ahmed

Muhammad Subhan:

Muhammad Subhan is a skilled MERN Stack developer with over 1 year of experience in building innovative web applications. He has developed a strong understanding of programming languages and software development methodologies. Subhan is proficient in Bootstrap and other front-end technologies, as well as databases and server-side technologies such as Express.js and Node.js. Subhan's combination of technical expertise, academic background, and problem-solving skills make him a valuable asset to any development team.

GitHub Profile: <https://github.com/msubhanahmed>

Role: Developer
